# Sociology 12 Foundational Outcomes

*Social studies encompass a broad range of disciplines including history, geography, civics, economics, law and sociology. While each discipline follows its own methodologies, all social studies courses aim to help learners develop problem-solving skills, think critically about issues and effectively communicate their findings. To support learners in social studies courses, foundational outcomes were selected with an emphasis on relationships and interrelationships, governance, and active citizenship. More broadly, outcomes were selected that would provide opportunities for learners to engage in social studies thinking concepts including significance, perspective, cause and consequence, continuity and change, and patterns and trends. Teachers should exercise professional judgement in relation to the suggested foundational outcomes in order to ensure that learning opportunities are responsive to the needs of their learners.*

**Students have the opportunity to take Sociology 12 as either an open or an academic course. The specific curriculum outcomes (SCOs) for Sociology 12 as an open course are printed in roman (plain) type. The SCOs for Sociology 12 as an academic course include those printed in roman type (Sociology 12 Open) as well as those printed in italics (for Sociology 12 Academic only).**
