artists-in-schools](https://www.ednet.ns.ca/artists-in-schools)

## Introduction

The Artists in Schools program supports schools in offering art-enriched learning experiences in classrooms across Nova Scotia.

Grades Primary to 12 students and teachers work with artists in all art disciplines—dance, music, theatre, visual arts, and writing—on curriculum-based projects that inspire students to explore their interests and expand their learning through the arts.

## Programming and Funding

Programs are free of charge or are subsidized. There are also art opportunities in both English and French. Check with the listed individual partner organizations for programming and funding formulas specific to each program.
